PROFESSIONAL SUMMARY

MERN stack developer with 4+ months of full-stack internship experience and a front-end focus, shipping responsive React.js and React Native interfaces backed by Node.js, Express.js, and MongoDB. Comfortable working with AI coding assistants such as GitHub Copilot and ChatGPT into daily development for scaffolding, refactoring, and debugging, while reviewing and testing every generated change. Strong fundamentals in JavaScript, component design, and REST API integration.

TECHNICAL SKILLS

Frontend: React.js, React Native, JavaScript (ES6+), TypeScript, HTML5, CSS3, Tailwind CSS, Responsive and Mobile-First UI, Component Architecture, React Hooks, State Management

Backend and APIs: Node.js, Express.js, RESTful API Design and Integration, JWT Authentication

Databases: MongoDB, MongoDB Compass, MySQL, Firebase (Realtime Data)

AI-Assisted Development: GitHub Copilot, ChatGPT, Claude, Cursor — used for code scaffolding, refactoring, debugging and documentation with manual code review.

Tools and Workflow: Git, Visual Studio Code, Postman, Chrome DevTools.

PROFESSIONAL EXPERIENCE

MERN Full-Stack Developer Intern, Parichaya Tech Solutions

Apr 2026 - Present | Bengaluru, India

VMOOV - Home Services Booking Platform | React.js, Tailwind CSS, Node.js, Express.js, MongoDB, REST APIs, Git

- Built responsive, reusable React.js components and page layouts with Tailwind CSS for service browsing and multi-step booking workflows.
- Integrated frontend components with RESTful APIs for user authentication, booking management, and CRUD data operations.
- Implemented order-status workflows across Ordered, Confirmed, In Progress, Completed, and Cancelled states, keeping UI state in sync with backend transitions.
- Modelled and managed users, bookings, and service data in MongoDB, and contributed to Express.js API endpoints.
- Used AI coding assistants to scaffold components, refactor logic, and accelerate debugging, reviewing and testing all generated code before commit.
- Handled cross-browser fixes, UI polish, API debugging, and manual testing through the development cycle.

ACADEMIC PROJECT

Matru-Sneh Healthcare - Pregnancy and Maternal Health Mobile Application

Technologies: React Native, TypeScript, Node.js, Express.js, MongoDB

- Developed a cross-platform React Native application for pregnancy tracking and maternal health management.
- Built the TypeScript mobile client against a Node.js and Express.js REST API backed by MongoDB.

EDUCATION

Master of Computer Applications (MCA)

2024 - 2026

University of Mysore, Department of Studies in Computer Science, Mysuru, India | CGPA: 8.60 / 10

Bachelor of Science (B.Sc.)

2020 - 2023

Government Science College, Hassan, India | CGPA: 8.27 / 10
